Sir:

Hynix Semiconductor Inc., 136-1, Ami-ri, Bubal-Uep, Ichon-Shi, Gyunggi-do 467-860, Republic of Korea (hereinafter “Assignee”), is the assignee of the entire right, title, and interest in the above-identified patent application, as shown by the assignment recorded on October 25, 2004, at Reel 015929, Frame 0540. Title of applications Serial Nos. 10/891,568 and 10/903,076 are also in the name of Hynix Semiconductor Inc. by virtue of assignments recorded in the U.S. Patent and Trademark Office on July 15, 2004, at Reel 015585, Frame 0857 and October 15, 2004, at Reel 015885, Frame 0932, respectively.

Assignee, through its undersigned attorney, hereby disclaims the terminal portion of the term of any patent granted on the above-identified application extending beyond the expiration dates of any patent(s) issuing from applications Serial Nos. 10/891,568 and 10/903,076, and hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to said patent and the legal title to any patent(s) issuing from

U. S. applications Serial Nos. 10/891,568 and 10/903,076 are commonly owned, this agreement to run with any patent granted on the above-entitled application and to be binding upon assignee and its successors or assigns.

Assignee does not disclaim any terminal portion of the term of any patent granted on the above-identified application prior to the expiration date of the full statutory term of any patent(s) issuing from applications Serial Nos. 10/891,568 and 10/903,076, in the event that such patents later expire for failure to pay a maintenance fee, are held unenforceable, are found invalid, are statutorily disclaimed in whole or in part or are terminally disclaimed under 37 CFR 1.321(a), have all claims canceled by a reexamination certificate, or are otherwise terminated prior to expiration of its statutory term, except for the separation of legal title stated above.

The assignments recorded on July 15, 2004, at Reel 015585, Frame 0857 and October 15, 2004, at Reel 015885, Frame 0932 establish the assignee's chain of title from the inventors.

The documents establishing the assignee's chain of title have been reviewed by the undersigned and the undersigned certifies that to the best of his/her knowledge and belief, title is in the assignee.

Enclosed is a check in the amount of \$130 to cover the terminal disclaimer fee.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted.
